

Pressrelease 2024-01-04

Allied Aero offers new VIP lounge at MMX Sweden.

Allied Aero Services proudly announces the launch of its exclusive VIP lounge at Malmö Sturup Airport in southern Sweden. This facility marks MMX first premier FBO (Fixed Base Operator) VIP Lounge, offering a comfortable and enjoyable experience for discerning private charter travelers.

Following a relocation, Allied Aero Services is delighted to present a VIP lounge with quality amenities such as a spacious lounge area, a relaxed dining room, a well-equipped conference room as well as private offices, providing a comfortable environment for both long and short stays.

As a family-owned business, Allied Aero Services is committed to its guests. Operating around the clock and conveniently situated at Malmö Airport, the FBO offers a time-saving alternative compared to what's possible at the bustling Copenhagen (CPH) or Roskilde (RKE) airports. Allied Aero Services aims to redefine the travel experience by combining top-notch services with a prime location, creating an unparalleled haven for those seeking a smooth and pleasant journey.
